

# Completing Ascendium Partner Portal New User Account Security Profiles

## Introduction

As part of our commitment to security, after you request account access to the Ascendium Partner portal on the Ascendium website (<https://ascendiumeducationsolutions.org>), we need you to complete security profiling of your account.

If you experience technical difficulties or have questions, contact Attigo Product Support by phone at (844) 649-2923 or by email at [Product\\_Support@ascendiumeducation.org](mailto:Product_Support@ascendiumeducation.org).

## Completing First-Time Login Requirements

To complete security profiling of your account, you need a user ID, temporary password, temporary security code, and a Symantec Validation & ID Protection (VIP) token or application (app) to generate a long-term security code. When you sign into the Ascendium Partner portal, the New User Account Setup wizard guides you through a series of questions to help us determine where you are in the setup process, and then helps you complete a few final steps. Within two business days, you receive a New User Welcome email from Product Support which contains your user ID, temporary password, and temporary security code.

The wizard guides you through the steps you need to obtain secure account access. This document details steps included in the wizard, which may not apply to you, depending on your situation.

## Obtaining a VIP Credential

You need a Symantec VIP credential—either a physical token (i.e., VIP Security Token) or a token downloaded to your desktop or mobile device (VIP Access). Complete the following to download VIP Access.

1. Access the New User Welcome email you received from Attigo® Product Support, and then click the link to the Ascendium Partner portal (<https://ascendiumeducationsolutions.org>).

The Ascendium Partner portal homepage opens.

2. Click *Sign Up* in the New User? section to open the Welcome page in the New User Account Setup wizard.

3. Click *Get Started*.

Figure 2: Example of the Welcome page in the New User Account Setup wizard, identifying the Get Started button.

The wizard asks whether you've received a welcome email with your user ID, temporary password, and temporary security code.

4. Click *Yes*.

Figure 3: Example of the question regarding receiving the welcome email in the New User Account Setup wizard, identifying the Yes button.

The wizard asks if you have a VIP security token.

5. Click *No*.

Figure 4: Example of the question regarding having a VIP security token in the New User Account Setup wizard, identifying the No button.

The wizard asks if you have downloaded the VIP Access app.

6. Click **No**.

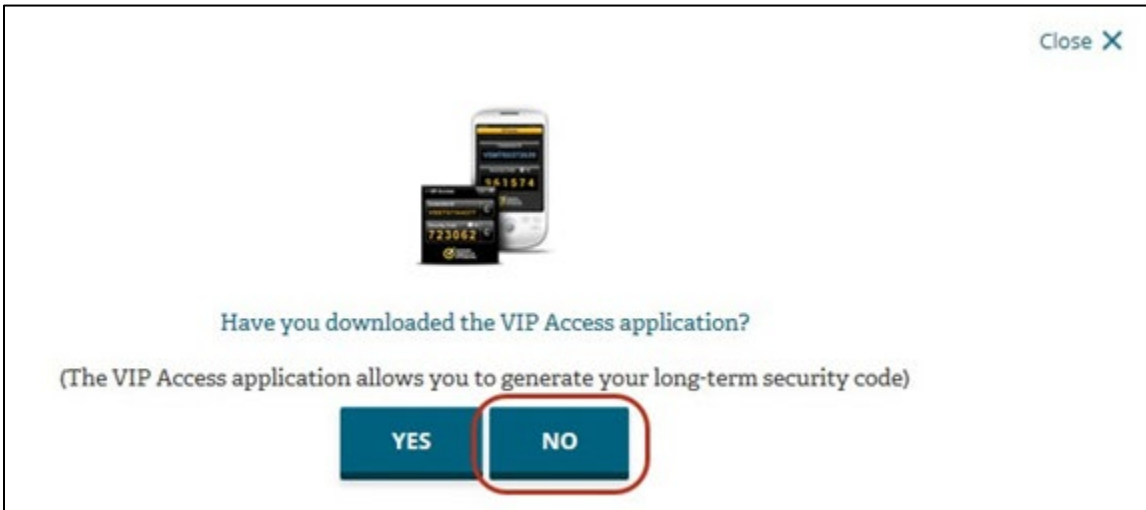

Figure 5: Example of the question regarding downloading the VIP Access app in the New User Account Setup wizard, identifying the No button.

The Get Your Security Code page opens.

7. Click Get VIP Access.

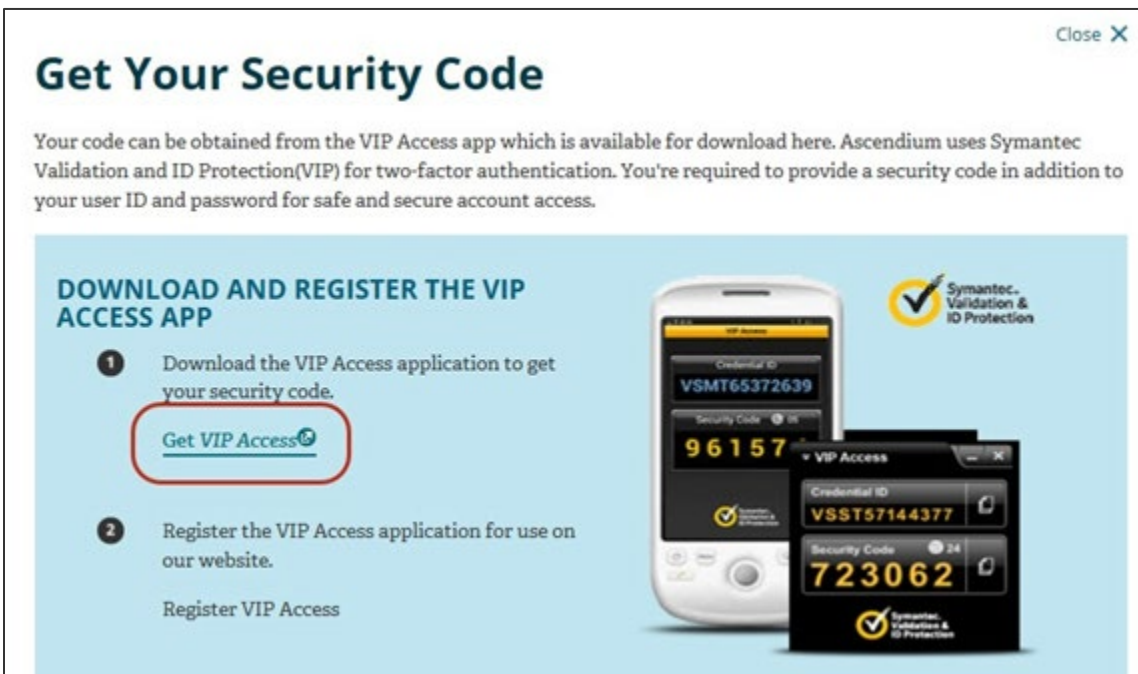

Figure 6: Example of the Get Your Security Code page in the New User Account Setup wizard, identifying the Get VIP Access link.

The wizard prompts you to download the app.

8. Click *Download*.

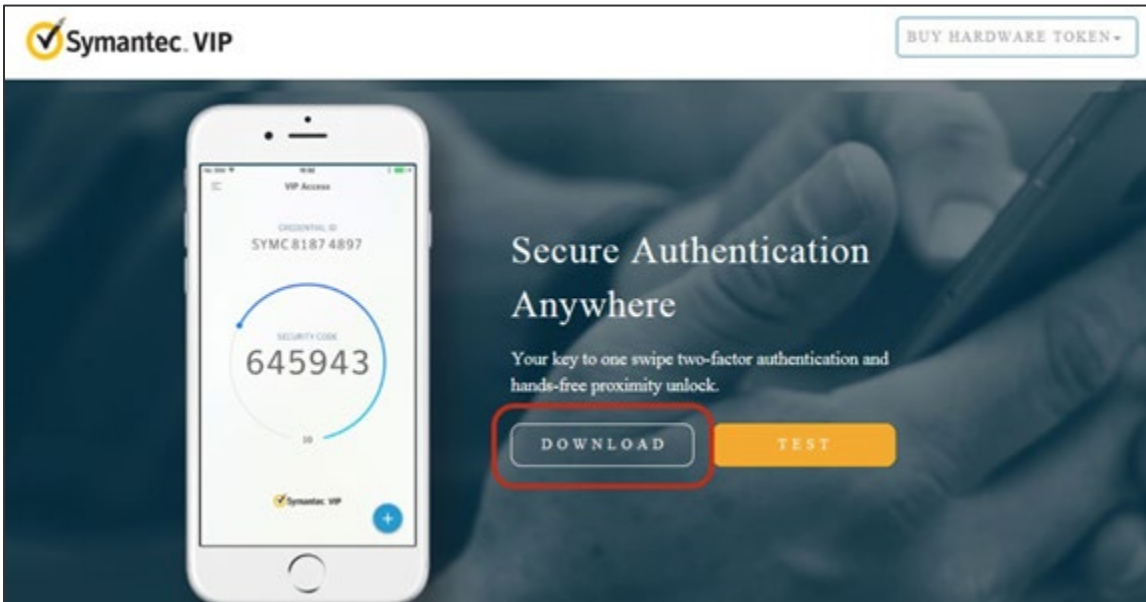

Figure 7: Example of the download prompt in the New User Account Setup wizard, identifying the Download button.

The wizard prompts you to choose your options.

- 9. Download the **VIP Access app** on your mobile device by clicking the appropriate icon (i.e., iOS or Android) from the VIP Access for Mobile options.

Figure 8: Example of the VIP Access for Mobile options.

- a. Symantec's secure website opens, and you are prompted to **download the app for mobile**.

-OR-

- b. To download the VIP Access app on your computer, click the appropriate icon (i.e., Mac or Windows) from the VIP Access for Computer options.

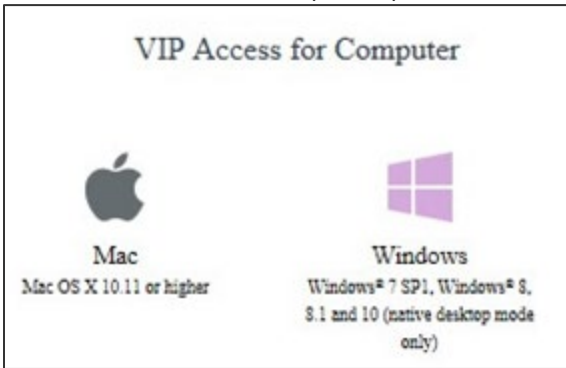

Figure 9: Example of the VIP Access for Computer options.

Symantec's secure website opens, and you are prompted to download the software to your computer.

**Note:** If you are unable to download software to your computer, work with your IT group to determine the best way to download it.

10. Follow the steps to download and activate VIP access on your mobile device or computer.
11. Once you download VIP Access, return to the [Ascendium Partner portal homepage](#), and then click **Sign Up** in the New User? section ([Figure 1](#)).
12. Repeat [Steps 3-4](#).
13. In the question regarding having a VIP security token in the New User Account Setup wizard, click **Yes** to indicate you have a VIP security token and open the Identification page.
14. Enter your user ID, temporary password, and the temporary security code. The temporary security code is provided in the Welcome Email.
15. Click **Next** to open the Change My Password and Security Question and Answer page.

Figure 10: Example of the populated Identification page, identifying the Next button.

16. Enter your temporary password in the Old Password field.
17. Enter and confirm a new password in the New Password and Confirm New Password fields.
18. Select a security question from the Security Question drop-down list, and then enter the answer in the Answer field.

19. Click **Submit** to open the Select Your Situation page.

## Change My Password and Security Question and Answer

 Please change your current password before continuing.

**• = Required**

Please confirm your old password, and then enter your new password. Your new password must:

- Be at least 8 characters long.
- Contain at least one uppercase letter, one lowercase letter, one number, and one special character.
- Not be the same as your current password.
- Not be a common word or phrase.
- Not contain your name or any part of your name.
- Not contain your email address or any part of your email address.
- Not contain your phone number or any part of your phone number.
- Not contain your social security number or any part of your social security number.

Then, select a security question and provide an answer. If you haven't already done so, remember that if you need to provide this answer in the future, you must enter it exactly as it is entered here, including punctuation and spacing.

• Old Password	<input type="password" value="••••••••"/>
• New Password	<input type="password" value="••••••••"/>
• Confirm New Password	<input type="password" value="••••~••••"/>
• Security Question	City of Birth <input type="button" value="v"/>
• Answer	City Name
